## OBJECTIVE

---

Software Engineer with 5 years of experience in building web and mobile applications, seeking full-time SDE roles.

## EDUCATION

---

**Masters of Science in Information Technology**, IIIT Hyderabad 2019

Relevant Coursework: Machine Learning, Fullstack Development

**Bachelor of Technology, ECE**, St.Martin's Engineering College 2012 - 2016

## SKILLS

---

**Technical Skills** Nodejs, Reactjs, React Native, MySQL, MongoDB, Microservices, Git

**Soft Skills** Leadership, Agile Sprint Methodology, Proactiveness, Critical Thinking

## EXPERIENCE

---

**Frontend Developer** Nov 2023 - Present  
Lyzzr AI *Remote, USA*

- Created an app to produce chatbots from varied sources and distribute them. Created a method to share them as widgets and utilize them anonymously.
- Developed a private knowledge search app in the style of Perplexity AI. Established authenticated and anonymous sharing of search outcomes via URL.
- Engineered an app to disseminate "Ask Me Anything" chatbots with influencers' custom landing pages by adding a new row in Supabase.

**Fullstack Developer** Nov 2022 - Oct 2023  
Bintix Waste Research *Hyderabad, IN*

- Spearheaded full-stack development across various portals, including admin, datalabs, profiling, and customer-facing platforms, collectively serving 27,000+ users.
- Developed a dynamic dashboard, featuring modular tables, intuitive modals, and real-time progress bars, csv reports resulting in significantly improved user engagement and interactivity.
- Rectified discrepancies within the payment system of the mobile application. Seamlessly incorporated a barcode scanner feature and streamlined image attachment capabilities within the app's framework.

**Senior Software Engineer** Aug 2021 - Nov 2022  
Valuebound Consulting *Remote, IN*

- Developed 5 admin interfaces with inline/modal based forms and access based control. Optimized frontend performance with pagination, API caching and server-side filters for Mankind Pharma
- Developed search screen with autosuggest that follows best practices. Increased code sanity and performance by 40% using best practices and mentored a team of 4

**Software Engineer** June 2019 - July 2021  
Auzmor *Hyderabad, IN*

- Built an e-commerce module using React JS with Semantic UI for a corporate learning platform catering to a user base of 100K+, currently
- Developed responsive and functional user interfaces from Figma designs by integrating them with backend RESTful APIs

## PROJECTS

---

**Course Comparator Tool** Built a tool to review and compare courses for students by using ReactJS, NodeJS, MongoDB. Institutes can create account and post courses to receive genuine reviews! (<https://compare-course.vercel.app/>)

**Therapist booking tool** Built a project that helps users search and book therapists using ReactJS, NodeJS, Prisma, Postgresql, Razorpay. (<https://friend-indeed.netlify.app/>)
